# AIRIS INFLATABLE KAYAKS

Go where life takes you

Getting on the water has never been easier.

## Airis, the "Kayak in a Bag"

Introducing Airis™, a new revolutionary line of inflatable kayakers by Walker Bay®. For over 10 years, Walker Bay has been on the leading edge of design and technology in recreational water products. With over half a dozen awards for product design and innovation, Walker Bay continues to raise the bar in performance and fun on the water.

New and innovative, Walker Bay's line of Airis Kayakers are the lightest, most compact high-pressure inflatable kayakers in the world. Providing rigidity and durability through AirWeb™ High Pressure Construction (patent pending), Airis Kayakers are tear and abrasion resistant, quick to inflate, simple to use and so portable, they roll up to fit inside their own backpack (included). Now you can take fun with you wherever you go!

# Portable Fun That's Ready In Minutes

## Lightweight & Compact

Experience the freedom and high performance fun of kayaking, without the burden of an awkward hard shell kayak. Every Airis Inflatable Kayak comes with a custom AirPack™ backpack. Lightweight and easy to carry, the AirPack has comfortable padded shoulder straps and two sets of gear straps for your paddle and air pump. Constructed from rip-stop nylon and mesh fabric, the AirPack is durable and breathable, allowing your kayak to dry better while stowed.

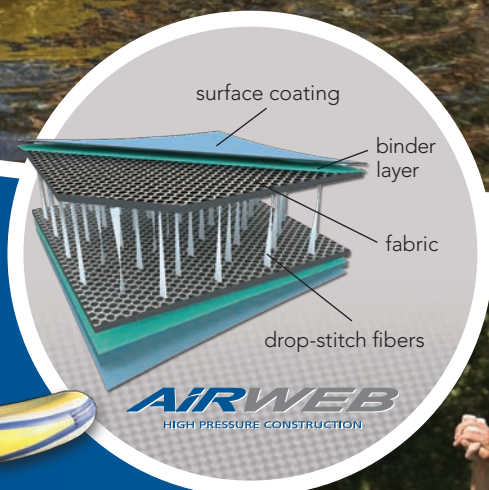

## Quick & Easy Setup

Preparing an Airis for launch is a quick and simple process. Unpack and unroll it on a flat surface, use the dual action high-pressure pump and gauge (included) to inflate, and the kayak is ready in minutes. Best of all, an Airis Kayak is so light, a single person can safely and easily maneuver it from dry land to the water with minimal effort.

# No Experience Required

## Incredibly Rigid & Stable

Airis Inflatable Kayaks are made using AirWeb™ High Pressure Construction (patent pending), formed from a heavy duty, seven layer polymer coated fabric that is joined inside by thousands of drop-stitch fibers. AirWeb makes it possible to inflate Airis Kayaks to more than 6.5 PSI or 0.45 bar, up to six times the maximum air pressure of other inflatable kayaks! This creates a hull that is incredibly rigid and durable without the use of complicated frame parts, and keeps the assembly of Airis Kayaks quick and simple.

AirWeb technology may make it seem like Airis Kayaks are for experts only, but many beginner kayakers find Airis much easier, and more comfortable to use than a traditional hard-shell kayak. In fact, an Airis is so easy to get in and out of, that playing in the water or going for a swim or snorkel during your paddle, becomes part of the fun.

# PLAY

## Fun for Everyone

The Airis Play is amazingly lightweight, extremely stable and so quick to set-up so you'll be on the water in no time. The shorter length of the Play makes it easy to maneuver whether you are exploring coves, or tackling whitewater, while the shape of the hull provides incredible stability and comfort. A fun, fast way to get on the water, Play is the perfect recreational kayak.

Also suitable for whitewater.

### STANDARD FEATURES & COMPONENTS

1. High-pressure AirWeb™ hull & floor (patent pending)
2. AirPack™ deluxe portaging backpack
3. Adjustable back rest
4. Bow keel & rear skleg\*
5. Splash guard
6. High-pressure air pump with gauge\*
7. Two molded carrying handles
8. Four D-rings for attaching accessories
9. Storage bungee
10. Two drain plugs\*
11. Two cup holders
12. Bow bumper rail
13. Repair kit\*

# PLAY TANDEM

## Two Kayaks in One

Still compact enough to fit in its own custom backpack, the Play Tandem is designed to comfortably accommodate two paddlers. Multiple D-ring attachment points allow the backrests to be adjusted for maximum legroom. The Tandem can also be converted into a single paddler kayak simply and easily, by removing one of the backrests. Perfect for families and couples, or even a single paddler with a dog.

### STANDARD FEATURES & COMPONENTS

1. High-pressure AirWeb™ hull & floor (patent pending)
2. AirPack™ deluxe portaging backpack
3. Flexible seating positions for one or two people
4. Oversized rear skeg\*
5. Splash guard
6. Six molded carrying handles
7. Two drain plugs\*
8. Six D-rings for attaching accessories

# SPORT

## Versatile Explorer

Loaded with features, the Airis Sport is a versatile inflatable kayak perfect for short expeditions or fun day trips. The long hull design combined with the bow keel and oversized rear skeg results in great tracking performance, so paddling distances is easier. The bungee tie downs and integrated storage compartment are great for transporting gear while the rubber handles and lightweight hull make it the ideal kayak for portages. Whether you're exploring, or just on a quick paddle, the Airis Sport is sure to provide fun & adventure.

### STANDARD FEATURES & COMPONENTS

# VELOCITY

## Sporty & Fast

The Velocity features a narrow beam and Sleek-Skin™ hull design to maximize paddling efficiency. An oversized rear skeg provides consistent tracking and integrated footrests offer the paddler support for a more powerful stroke. As a result, the Velocity glides through the water quickly and easily. With a storage compartment for food & refreshments and integrated bungee cords for gear, the Velocity is the ideal kayak for day trips.

### STANDARD FEATURES & COMPONENTS

1. High-pressure AirWeb™ hull & floor
2. AirPack™ deluxe portaging backpack
3. Sleek-Skin™ Hull Design for high speed paddling
4. Over sized rear skeg\*
5. Splash guard

# ANGLER

## Get Hooked on Kayak Fishing

Loaded with features, yet compact enough to stow in its own backpack, the Angler is a versatile and practical way to get on the water and fish. The Angler offers a wide, durable, stable hull that comes fully equipped with rod holders, foot rests, bowline, integrated storage areas, and paddle holders. The highlight of this kayak is a multifunctional accessory attachment system called Versa-Track™ that runs down both sides of the kayak, features 32 attachment points for gear, and comes with an aluminum gear-mount platform for adding tools such as depth sounders, fish finders, down riggers or even swivel seats! Available in two color options: Camouflage or Yellow.

### STANDARD FEATURES & COMPONENTS

1. High-pressure AirWeb™ hull & floor (patent pending)
2. AirPack™ deluxe portaging backpack
3. Aluminum gear-mount platform
4. Two fishing rod holders
5. Stern storage area with bungee & drain hole (fits milk crate)
6. Integrated footrests
7. Heavy duty D-ring bow handle with bowline
8. Oversized rear skeg\*
9. Paddle holder
10. Versa-Track™ accessory attachment system

(With pump attached)	76 cm x 48 cm x 38 cm

# TENDER

## Function Meets Fun!

The Tender is designed to go from ship to shore with gear & groceries while still offering the enjoyment of kayaking. It comes loaded with features such as integrated storage, paddle holder, bowline foot rests, and a mini Versa-Track™ accessory attachment system. The Tender also features Walker Bay's exclusive Connect-a-Yak™, patent pending system that enables you to connect two or more boats bow-to-stern to create a tandem kayak, providing the option to paddle with others, fetch passengers, or haul more gear.

### STANDARD FEATURES & COMPONENTS

1. High-pressure AirWeb™ hull & floor
2. AirPack™ deluxe portaging backpack
3. Connect-a-Yak™ (patent pending) tandem connection system
4. Integrated footrests
5. Bow Keel and a Removable double-skeg\*
6. Heavy duty D-Ring with bowline
7. Splash guard
8. Integrated storage chamber

# Accessories

Walker Bay offers many high performance accessories to enhance your paddling experience.

## Paddle

The Airis Paddle features a lightweight, two-piece aluminium shaft with textured grips and three connection angles for customized comfort. The composite paddle blade is asymmetrical and curved for enhanced hydrodynamics. Available in black with yellow blades.

## Deluxe Adjustable Seat and Backrest

This thermoformed ergonomic cushioned seat and backrest provide superior comfort, advanced support and features a fully adjustable four direction strap system. Available in black with gray accents.

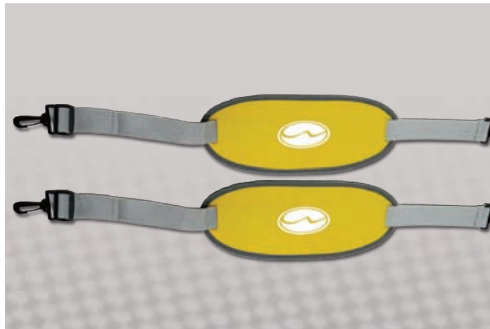

## Basic Adjustable Seat and Backrest

Basic seat and foam backrest features moisture wicking mesh fabric and fully adjustable four direction strap system for customised support. Available in gray.

## Spray Cover

Convert your sit-on-top Airis Kayak into a sit-inside model with the addition of the Spray Cover. Waterproof and UV resistant, the Spray Cover will keep you dry from drips and splashes and protect you from the sun's harmful rays. One size fits all Airis Kayaks(\*except Tandem & Angler models), available in yellow.

## Thigh Straps

Especially useful in surf and whitewater, the padded Thigh Straps help you get more control out of your Airis Kayak. Featuring double snap hooks for fast attachment and removal, the Thigh Straps are fully adjustable to fit any sized paddler. Available in yellow with gray mesh padding.

## Gear-Mount Platform

Designed to fit the Tender & Angler kayaks, the aluminium Gear-Mount Platforms can accommodate a multitude of accessories from fishing rod holders, fish finders, and GPS devices to swivel seats and motors. Available as a bare platform or with rod holders installed.

# Premium Quality

At Walker Bay® quality comes first. All Airis™ Kayaks are built to last using a heavy duty 7 layer polymer coated fabric which is incredibly durable. With additional material in high wear areas, Airis™ Kayaks are more stretch, tear & scrape resistant than other inflatable kayaks. Walker Bay stands behind all Airis Kayaks with a 2-year limited Warranty.
