Rule Shower Drain Box

NEW

800 & 1100 GPH – AUTOMATIC SHOWER & SINK DRAIN SUMP BOX

Our new shower drain box provides ultimate pumping performance, which helps keep your boat clear of nuisance water, building on the genuine Rule design.

Rigorous engineering and testing helped generate the new series of Rule automatic shower and sink drain systems. Our products are tested to the highest standard, providing better efficiency for the toughest applications.

The new Rule shower drain systems have been designed to meet the needs of installers and end users. As well as reliable, fully automatic operation, the new Rule shower box is simple to install, has a sealed clip-on lid to prevent unwanted water splash and is fully serviceable without the need for any tools.

Our new designs include:

- **Powerful 800 GPH or 1100 GPH pump** – High capacity pump to cope with incoming grey water
- **Sealed polycarbonate lid** – Tough impact resistant material with gasket to prevent water splash
- **Fast Fix System** – Lid, pump, filter and float switch can be removed and serviced without tools
- **Threaded Port Fittings** – Improves installation by offering several combinations of port fittings including 3/4" (19mm), 1" (25mm), 1-1/8" (29mm), straight and 90° elbow fittings
- **Simple Installation** – Easy access side rails plus additional rear bracket option
- **Back Flow Prevention** – Reduces the amount of water that can siphon back to shower box

The Rule brand builds on over 50 years of operational excellence and application expertise with a broad range of solutions for the marine industry.
