INSTALLATION GUIDELINES

Diagram: 1

- 1.1) Stick drilling template in desired mounting position.
- 1.2) Drill a 52 mm diameter hole using a holesaw.
- 1.3) Place panel in hole and mark the 4 fixing holes.
- 1.4) Remove panel then drill the four 1 mm diameter fixing holes.

Diagram: 2

- 2.1) Make sure that rubber seal is placed on the base column.
- 2.2) Wire and/or plug unit to the control circuit.
- 2.3) Position "Red" button to left and "Green" button to right.
- 2.4) Fix base unit with the four fixing screws as supplied with unit.

Diagram: 3

- 3.1) Only when totally finished and satisfied with wiring and positioning of the unit, clip-on the face panel/cover.

Diagram: 4

- 4.1) To remove the clip-on cover slide a flat headed screwdriver, with 6-7 mm wide tip, between the clip-on cover and the dashboard at position (a) and then (b) and twist the tip slightly. Push in the tip of the screwdriver at least 3 to 4 mm before twisting it.
