

The only sea-water resistant press fastener you can truly rely on

made to last

# FINALLY: a press fastener you can truly rely on

Hardly anybody realizes that press fasteners used in the tough conditions like marine applications are not even resistant to sea water - until now! Probably the smallest item on deck is now available in real 316 stainless steel: CAF-316®. To achieve true durability, even the internal spring is made of top quality duplex stainless steel, insuring years of dependable performance regardless of the conditions.

## CAF-316 Cap (A)

product	code	package
normal shaft ø 15mm	polished SS 316 210000-100 210000-1000	100 x caps 1000 x caps
normal shaft colour ø 15mm	SS 316 BLACK 210001-100 SS 316 BLACK MATT 210002-100 SS 316 PEARL WHITE 210003-100 SS 316 GREY 210004-100 SS 316 KHAKI 210005-100 SS 316 NAVY BLUE 210006-100 SS 316 BORDEAUX RED 210007-100	100 x caps
long shaft ø 15mm	polished SS 316 210100-100 210100-1000	100 x caps 1000 x caps

special colours  
and custom logo on request

## CAF-316 Socket (B)

product	code	package
socket	SS 316 with special CAF-spring 220000-100 220000-1000	100 x socket 1000 x socket

## CAF-316 Stud (C)

product	code	package
stud	mid-base in SS 316 230000-100 230000-1000	100 x stud 1000 x stud
screw-stud 10 mm (3/8")	230110-100 230110-1000	100 x screw-stud 1000 x screw-stud
screw-stud 16 mm (5/8")	230116-100 230116-1000	100 x screw-stud 1000 x screw-stud

standard optimised screw

optimised for composite and wood  
applications up to 50% better hold  
than standard tapping screw

## CAF-316 Fixing

product	code	package
tapping screw	4,2 x 16 C-Z A4 140100-100 140100-1000	100 x screw 1000 x screw
M4 bolt	M4 x 16 DIN965-Z A4 140200-100 140200-1000	100 x M4 1000 x M4
self-drilling screw	3,9 x 16 DIN75040-Z A2 141400-100 141400-1000	100 x sd-screw 1000 x sd-screw
blind rivet	4,0 x 10 DIN 7337B A2 141300-100 141300-1000	100 x blind rivet 1000 x blind rivet
eyelet (D)	SS 316 140500-100 140500-1000	100 x post 1000 x post

2,5 to 3 mm (7/64" - 1/8")  
depending on material.

CAF-316® is delivered in smart, stackable packages even for do-it-yourself customers.

### DO IT YOURSELF KIT

Code: 250001-10  
Package: 10 sets incl. tools  
cap + socket + screw-stud

for solid surface

### DO IT YOURSELF KIT

Code: 250002-10  
Package: 10 sets incl. tools  
cap + socket + stud + eyelet

for fabric to fabric

## sea water **RESISTANT**

CAF-316 is a press fastener, made of the high quality material 316 Stainless Steel

## **RELIABLE** performance

Even the spring inside the socket is made of high quality duplex stainless steel, making sure the fasteners performance is stable over time and use, without deformation. No matter the conditions

## easy to **INSTALL**

Installation is like a normal press fastener (self piercing shaft) using the same application tools, from hand punch to full automatic machines

## variety of **COLOURS**

With caps being enamelled 316 stainless steel for a perfect match with your canvas

It is often said by experienced cover makers and fabricators: the weakest link of a cover, tent or any other textile product are the fasteners. More than the textile and the craftsmanship itself, the quality and lifetime of their products depend on the thread, zippers and fasteners.

Especially in applications that don't allow compromise, like marine, industrial and outdoor, it is the end-user of these products that suffer from insufficiencies. As true reliability drills down to every detail, CAF-316 uses spring technology that avoids galvanic corrosion or electrolysis, is full sea water resistant, while ensures a similar and stable spring performance as one is used to and should expect. Accept no compromise.

At last SUREFAS brings modern technology to bear on a long-standing problem: making press fasteners truly corrosion free. From now on you can place your trust in the real durability of CAF-316, made to last.
